

HOLIDAY CLASSES FOR STUDENTS AND PUPILS, JULY 25 – AUGUST 25, 2023

MFUNI VILLAGE

REPORT OF ACTIVITIES 2023

1. OBJECTIVE

Organizing holiday classes was an initiative that had as sole aim to launch their opening of schools at the secondary level in Mfuni village within the context to the ongoing Anglophone crisis. It should be specified that the nursery and primary sections have been functioning for three years under different entities. First by the Catholic Church on the village land, second, by the village community, and third, by some indigenes. Unfortunately, for over six years, this secondary level has not been operational.

2. SOURCES OF FINANCE

Some diasporans were contacted, and two responded: Dr. Ako Rajour Tanyi in Australia and Mr. Ty Arrey Tumba Eno-Tambe in the United States. A total sum of 175,000 F was raised to kickstart the holiday classes, which began on July 25 and concluded on August 25.

3. SUPPORT OF VILLAGE COMMUNITY

The village authorities were contacted, and upon their advice, we used the premises of the Government Primary School. They also recommended including primary school children in the free holiday classes. Heads of quarters were encouraged to spread the news to parents in their respective jurisdictions. As a result, we successfully rallied over 132 children, ranging from kindergarten to secondary school.

4. TEACHING STAFF AND ACTIVITIES

The teaching staff consisted of seven members, including some trained teachers and support staff residing in Mfuni village. A preparatory meeting was held on July 23, during which we agreed to organize the children into three levels for the primary section:

- **Level 1:** Classes 1 and 2
- **Level 2:** Classes 3 and 4
- **Level 3:** Classes 5 and 6

For the secondary section, we grouped the students into two levels:

- **Level 1:** Forms 1 and 2
- **Level 2:** Forms 3 and 4

- The following timetable guided our teaching activities:

TIME DAY	3:00P.M–5:00P.M	3:00P.M–5:00P.M

TOTAL=175,000F

7. EVALUATION

An evaluation took place on Saturday, August 26, 2023, after the conclusion of the classes, although it was delayed due to rain. Six teachers attended, except for Mr. Agbor Solivan, who was unavoidably absent.

The coordinator expressed gratitude for the team spirit and dedication of each member, despite the challenges posed by the rain and farming activities. While there were funds remaining, the members' expectations were somewhat dampened by the amount distributed. It was understood that the amount was allocated based on the number of registered children.

Despite this, the team was deeply appreciative of the donors' initiative and the plans. Everyone was optimistic about improved working conditions and better planning for the next year.

The evaluation also addressed challenges encountered and perspectives for improvement moving forward.

8. CHALLENGES

- Poor attendance due to the late start of the program.
- Challenges caused by the rainy season and the muddy condition of the roads.
- Lukewarm attitude from some parents due to the lack of such classes in the village for many years.
- Sports activities distracted many children from attending.
- The duration of classes, limited to one month, restricted how much could be covered.
- Poor planning of activities and mobilization efforts before the commencement of the classes.
- Limited resources, both financial and material.
- Insufficient number of teachers to meet the demand.

9. PERSPECTIVES

- Proper organization will be completed before the end of each academic year.

HOLIDAY CLASSES FOR STUDENTS AND PUPILS, JULY 25 – AUGUST 25, 2023 MFUNI VILLAGE

- Efforts will be made to secure more sponsors for the holiday classes.
- The nature of activities will shift away from strictly academic work. The focus will instead be on acquiring skills such as computer literacy, music, traditional and cultural practices, agriculture, home economics, and other activities depending on available resources.
- More skilled teachers will be recruited to support the program.
- Classes will be scheduled to start in early July and end in early August.

10. CONCLUSION

On behalf of the teaching staff and the village community, I sincerely thank the donors for this wonderful initiative, which has kept our children engaged during the holidays and revived hope in their education amidst the ongoing Anglophone crisis.
